ABOUT ME

Motivated and detail-oriented Computer Engineering student with practical experience in software development and software testing. Strong foundation in programming, web technologies, and quality assurance practices with hands-on exposure to building real-world applications and testing production systems. Experienced in manual testing, test case design, bug reporting, regression testing, and API testing. Proficient in Python, Java, SQL, and web technologies with working knowledge of automation testing using Selenium WebDriver and Postman. Comfortable working in collaborative environments using tools like Jira and Git, with interest in contributing across the full software development lifecycle including development, testing, and validation.

EXPERIENCE

QA Manual Tester | Eklavya.me

September 2025 – April 2026

- Performed manual testing of the Eklavya.me platform, identifying bugs and UI/UX issues.
- Tested new features and workflows to ensure functionality and usability.
- Provided structured feedback to developers for improvements.
- Collaborated with development team to retest fixes and validate updates.

Software Quality Assurance Tester | PRAM Educate IT Software LLP

May 2025 – July 2025

- Conducted manual testing on Android applications and identified critical bugs and UI issues.
- Designed and executed test cases for multiple modules ensuring functional correctness.
- Performed API testing using Postman and automation practice using Selenium WebDriver.
- Collaborated with developers to report, track, and verify bug fixes.

PROJECTS

Real-Time Chatroom with Hate Speech Filtering — PHP · MySQL · JavaScript · FastAPI · HTML · CSS

- Built a PHP-based chatroom application that blocks hate speech using an ML model; offensive messages are flagged while normal messages are stored in the database.
- Integrated FastAPI for ML model serving and cURL for API communication between frontend and backend.

Smart Chatbot System — React · TypeScript · MongoDB · Node.js · RAG

- Developed an AI-powered chatbot to handle repetitive admin and admissions queries, reducing manual workload for office staff.
- Integrated a Retrieval-Augmented Generation (RAG) system for accurate, context-aware responses.

Payroll Management System — HTML · CSS · PHP · MySQL

- Developed a web-based payroll management system to automate salary calculation, attendance tracking, and employee data management.

Library Management System — Java · File Handling · Database

- Developed a system to manage book records, book issuing/return operations, and student details using Java and database/file handling concepts.

Student Record Management System — C++ · OOP

- Built a console-based application to store, search, update, and manage student records using C++ and object-oriented programming concepts.

SKILLS

Languages: Python, Java, C/C++, SQL, PHP, JavaScript, TypeScript

Web Development: HTML, CSS, ReactJS, Node.js, FastAPI, Flask, Django, Streamlit

Databases: MySQL, MongoDB, PostgreSQL

Testing & QA: Manual Testing, Test Case Design, API Testing, Selenium WebDriver, Regression Testing, Bug Reporting

ML & Data: Pandas, NumPy, Scikit-learn, Text Classification, Model Deployment, Seaborn, Matplotlib

Tools & Platforms: Git, GitHub, Jira, Postman, Maven, JUnit

EDUCATION

Pimpri Chinchwad College of Engineering and Research Bachelor of Computer Engineering	2023 – Present CGPA: 8.86
S.B. Patil College of Science and Commerce HSC – Computer Science	2021 – 2023
St. Jude High School Secondary School Certificate (SSC)	2008 – 2021 76%

ACHIEVEMENTS & VOLUNTEERING

- Awarded Gold Medal at the State Level Karate Championship; represented district as Captain in the Inter-District Hockey Tournament.
- Won Best Project Award at PCCOER College for outstanding project development and innovation.
- Appointed as Technical Member in Google Developer Student Clubs (GDSC) and Project & Innovation Club (PIC).
- Volunteered at Global Entrepreneur Conclave 2025 (National Level) — event coordination and technical support.
- Technical Member for ACM — supported workshops and ensured smooth execution of event operations.
- Technical Member in Navdhara (State-Level Project Competition) — managed official event website and online operations.
